MICHELIN X TERMINAL-T TL

SEAT Ø (INCHES)	ALL POSITIONS SIZES	RIMS	
NEW 22.5	310/80 R 22.5 175 A8	8.25 / 2.0	9.00 / 2.0
22.5	280/75 R 22.5 168 A8	7.50 / 2.0	8.25 / 2.0

 Antistatic properties in compliance with the current international standards

➤ MULTI-PURPOSE TYRE

- One solution for all axles on tractors and trailers
- Easy fitting on usual drop centre rims to replace truck tyres

➤ PRODUCTIVITY AT LOW COST

- Reduced machine downtime and more efficiency thanks to radial technology
- Tread life: + 100% minimum compared to a truck tyre
- Excellent damage resistance thanks to massive tread band and thick reinforced sidewalls
- significantly lower rolling resistance vs. a bias or solid tyre => less fuel consumption and reduction of CO₂ emissions

➤ SAFETY

- Tubeless solution preventing sudden pressure loss
- Excellent handling
- Adherization plan for enhanced grip in winter conditions

➤ COMFORT

- Absorption of ground unevenness

**Our experts are at your service;

REPARABLE AND RETREADABLE TYRE

BENEFITS OF THE MICHELIN® RADIAL TECHNIQUE

- longer tyre life
- better traction on all types of surface
- lower fuel consumption
- improved comfort
- increased resistance to punctures / flats
- increased heat resistance
